

I am a regular listener of K-love heard on 90.3 FM. It is a lifeline for me since the music is so uplifting to me personally. I would be lost without it. I know several listeners of K-love that would be very upset to not have that support everyday. It is in the public interest to allow us to have K-love as it helps us get through the day. I am asking that you not take K-love off the air. It would be sorely missed. We need more stations like K-love as it promotes a high moral standard for America and particularly for the children we are raising. Thank you for this consideration. Jane Sloan
